Chief Shakes of Thlinget Tribe, Passed Away Last Tuesday

Chief Shakes, the high chief of the Thlinget Indians, and a well known figure about Wrangell, passed away at his home on Snakes Island last Tuesday afternoon.

Possibly there is no Native figure in all Alaska who has attracted as much attention and is as well known as Chief Shakes. For over thirty years he has ruled the Thlingets of this section and at one time was power in the country. Chief Shakes was well liked by everyone and his popularity is no secret to the natives but was also respected by the whites as well.

Chief Shakes was between sixty and seventy years of age and is the last of the Royal Family, the Chief of the tribe is now going to Chas. Jones who will probably accept the title although it amounts to little under the new laws.

The home of Chief Shakes was one of the interesting sights for the tourists and thousands of them have visited the old Chiefs house which contained a great collection of old time Indian curios.

Washington Has A New War Scare

Washington March 30—"Is war meant" is the question that is the all absorbing topic in Washington today and is the question heard on every side. The accumulation of circumstantial evidence indicates that Germany is now engaged in a campaign of submarine warfare without any regards whatever to America. It has created a serious situation in Washington, the State Department is seeking all available evidence and it is stated that their next step has already been determined. All other subjects even to Mexico is over shadowed by the European question and it is stated that it is a near possibility that diplomatic relations with Germany and her Allies will be severed at any moment.

London, March, 30—According to reports received today the Germans have gained considerable ground in the western battle front and north of the front the French are being driven back.

Town Election Next Tuesday

Wrangell is facing a very serious problem in the election of a town council to handle the city affairs for the coming year. The town is facing a condition that is not to be considered lightly and the picking of men to guide the town to prosperity should be done with the best interests of the town at heart and elect men who are capable of doing it. From the list of nominees which will be placed before the voters next Tuesday you will find the names of seven men who from past dealings have shown that they have the interests of the community at heart, such are the men whom we want at the head of the city affairs. The position of councilman for the next year is not going to be a light job, Wrangell is entering one of the most prosperous times in her history and a progressive council must be at the head of affairs for us to reap the full benefits.

The council of the past year have done remarkably well considering the financial condition under which they had to labor during their term of office, and a part of the old council is running again for reelection and these men are certainly eligible for office.

Think before you vote, then vote for the best interests of Wrangell.

Minutes Of Caucus Meeting Thurs. Night

The caucus meeting held at the town hall last Thursday evening turned out to be rather an interesting meeting and the first time in the history of the town several women were placed in nomination for the position of city councilmen.

The meeting was called to order by Mayor Grant who was duly elected chairman of the meeting. Mayor Grant had stated that

tions for the Common Council the following were nominated: D. Sinclair, T. Case, L. C. Patenaude, P. C. McCormack, J. G. Grant, M. Katzenmeyer, Mrs. C. A. Emery, Chas. Benjamin, Mrs. Wm. H. Lewis, Frank Spalding, Frank Gingsburg, J. E. Worden, Adolf Engstrom, Chas. Nelson, A. Sorset, Geo. H. Barner, Chas. Borch, K. Johansen, O. Carlson, Mrs. O. Carlson, Mrs. T. Case, Mrs. Kate Kuse, Fred Leonard, and E. Campbell. A total of 25 nominations, seven of the number declined to accept the nominations at the meeting and since that time many others have sent in their resignations to the clerk and those remaining on the ticket to date are:

L. C. Patenaude,
T. Case,
J. G. Grant,
A. Sorset,
M. Katzenmeyer,
Frank Spalding,
Adolf Engstrom,
Mrs. Kate Kuse,
Fred Leonard,

In the nominations for a member of the School Board only one name was placed on the list, P. C. McCormack.

Forest Supervisor Weigle passed through on the forest boat Tahn last Saturday evening. Supervisor Weigle has been on an inspection trip over the reserve as far north as Warm Springs.

Saturday and Sunday Nights

Two Men Goes Hunting Fail To Return, Body Of One Is Found

Tom Ishii, a well known Japanese of Wrangell, and Jack Sookoff a Russian, are believed to have drowned last Saturday afternoon somewhere between here and Shoemaker Bay a distance of about four miles.

It seems the boys left town last Saturday morning about ten o'clock in a twelve foot skiff, stating that they were going down to Shoemaker Bay to see if they could kill some ducks. When the boys did not return on Sunday as they had planned, a search was started for them and their boat was found Sunday afternoon on a point about two miles from town, and this morning Fred Johnston discovered the body of Ishii floating close to shore in Shoemaker Bay. The body was brought to town and an inquest heard Dr. S. C. Shurick examined the body thoroughly and returning a verdict of believed accidental drowning.

No trace has been found of Sookoff but it is believed that his body will be found in a few days as parties are out looking for him. It is thought that in some manner, while standing up to shoot or trying to change places in the boat, they were thrown into the water and were unable to reach shore. Both men are reported good swimmers.

Tom Ishii has been in Wrangell for some time working most the time as a cook and was about 31 or 32 years of age. Jack Sookoff has worked at the saw mill for about three years and is thought to be about 25 years of age.

Wickersham Introduces Statehood

Washington, March 30—Delegate James Wickersham of Alaska, today introduced a bill for Alaska. The bill already has many supporters who are under pledge to vote and work for its passage. It is felt here that the bill has an even chance at least of passing.

Seward, March 30—All the trading posts along the Kuskokwim are short of provisions according to information received here today. The natives all over the district are starving and according to reports they are fighting like dogs for the scraps from the white mens camps. The game in the district has been scarce this winter and the salmon season was very short making the natives food very scarce.

STETSON Hats Have Become a Part of Literature

Great writers make atmosphere for their characters by having them wear STETSON Hats.

Harold Bell Wright says:

"I use Stetson in my stories because the public associates Stetson with Genuineness and Quality."

"The idea of Stetson strengthens the reader's conception of the character of the man who wears the hat."

SPRING STETSONS

are here, bright and cheery as Spring itself. Our service is prompt—your choice will be quick and satisfactory.

Crosset Shoes

for the man about town cannot be beat for wear and appearance. Our new rubber soled shoe for men and women solves the problem on wet and damp days. They look dressy, are substantial without being heavy, and they keep the feet dry.

HOW TO LIVE.
Life lengthened to its fullest is
short enough, and the man who
lives it out on straight lines, giving
lift for lift and lick for lick, not over-
joyous in periods of personal suc-
cess and achievement nor yet too
despondent when the game goes
against him, keeping in mind always
the supreme value of the average in
all things, will leave the world still
so much in love with it that he
would like to linger yet for awhile
to work and dream in its pleasant
and fruitful pastures.

Brick the Best Fireproof Material.
Studies of the ruins of conflagrations,
as well as of many other fires, have
shown conclusively that hard burned
brick forms the most efficient fire-
proofing material we have at the pres-
ent time. This seems to be due both
to the homogeneous texture of brick
and to its small size. The hardest
burned brick may spall somewhat on
the outer face, but the face next to the
steel does not heat dangerously and
the numerous joints relieve to a great
degree the effects of expansion. Un-
fortunately, brick is the most expen-
sive kind of fireproofing.—Engineering
Magazine.

An Old Proverb.
The proverb "Necessity is the moth-
er of invention" can hardly be traced
to one independent source. The idea
was expressed by Persius, the Roman
satirist, about 60 A. D. and is found in
the precise form now quoted in Rich-
ard Franck's "Northern Memoirs" (printed
in London in 1694) and in various
later English writers.

Electromagnets.
Joseph Henry was the first to con-
struct electromagnets in a useful form.
In 1832 at the Albany academy he suc-
ceeded in ringing a bell over a mile of
wire.

Cork.
Cork was known to the Greeks and
Romans and was put to almost as
many uses as at present, although there
is no mention in Rome of linoleum, not
withstanding its Roman sound. Glass
bottles, with cork stoppers, for wine
and beer did not come into use until
the middle of the fourteenth century.

Soap Bubbles.
To make satisfactory soap bubbles
dissolve the best castile soap in water
and add glycerin. Take one part of
castile soap, twenty parts of water and
fifteen parts of glycerin, all by weight.

A Tea Test.
Unwholesome tea can be detected in
the following simple manner: Turn
out the infused leaves, and if they are
of a good brown color the tea will be
wholesome. But if the leaves are black
and of a rotten texture, with an oily
appearance, the tea will not be fit to
drink.

BATTLES IN THE BLOOD.

Antitoxins Fight the Germs of Their
Particular Disease.

When any animal has a certain dis-
ease its body produces large quantities
of the particular antitoxin that will
fight that disease. If the blood of this
animal be introduced into another ani-
mal the latter will get the disease, but
in a milder form, and will at the same
time be stimulated to secrete large
quantities of the antitoxin. It is now
capable of resisting an attack by an
army of powerful germs and becomes
"immune" to the real disease.

If its blood be drawn and filtered to
free it from red and white corpuscles
the serum that is left is merely the
watery part of the blood heavily
charged with the antitoxins of that
disease. This, injected into the blood
of a person suffering from it, re-en-
forces the antitoxins already there and
speedily routs the enemy by neutraliz-
ing the poisons that the toxic germs
are liberating.

Serum is prepared in two ways: one
by taking it from the blood of another
animal, the other by a culture from
the blood of the patient himself.
There are only one or two diseases
that can be cured by medicine. Ther-
apies the medicine is given merely
to stimulate the natural production of
antitoxins. If we knew how to make
an antitoxin for every disease we
should have no more use for medicine.
The number of diseases for which
antitoxins are being discovered is in-
creasing year by year. — New York
World.

FRISKY SENATE BICKER.

They Are Great Mimics and Good
Burlesque Legislators.

They are the greatest mimics in the
world. They can take off the life, the
graces and humorous peculiarities of
the senators to a "T."

Sometimes when the senate is not
sitting and too many visitors and page
boys are not around to observe the
proceedings the pages themselves go
into a solemn senatorial session. One
will impersonate the vice president,
another the chief clerk, and so on.
Various other boys will pretend to be
either their favorite senators or the
senators of home states. Each boy oc-
cupies the seat to which the real sena-
tor is entitled.

Bang! goes the vice president's gavel,
and the extraordinary session of pages
has convened. There is always an
argument as to which senator shall
be recognized when the regular order
of business is reached. Every conceiv-
able current subject is discussed, with
a goodly sprinkling of "baseball legis-
lation," which always carries with it a
rider by which each page senator shall
be entitled to an annual self-renewing
pass for all the season's games.

A bill which is almost sure to be
introduced is one which proposes to
increase the salaries of the pages and
shorten their hours of duty.—Robert D.
Heine in Leslie's Weekly.

LITTLE THINGS.
The streams of small pleasures
fill the lake of happiness, and the
deepest wretchedness of life is the
continuance of petty pains.

Bushing a Stovepipe.
When a stovepipe is too small for
the hole in the chimney a bushing
can readily be made of metal to-
bacco boxes that are curved to fit in
the pocket, says Mechanics. Remove
the tops and bottoms of the boxes and
shove them in around the pipe. If
such tobacco boxes are not at hand
tin cans of any kind can be used by
melting off the tops and bottoms and
bending the remaining cylindrical
shells into proper shape.

Why this man bought a
Remington Junior
Typewriter

"I have been investigating several of
the recent makes of typewriters and
for one of simple construction, a com-
pact, reliable and letter writing ma-
chine was nearly ready to buy a Remington
Junior when I saw the Remington
Junior, and found it to be the very thing
I wanted."

The man who wrote this is the postmaster of a small
Southern town. He is only one of thousands who have
recently bought a Remington Junior. But his reasons
apply to everybody—they apply to YOU.

The Remington Junior is our latest product and the
latest idea in typewriting.

It is strictly a high-grade machine.

It has the Remington Name, the Remington Guar-
antee, the Remington Quality—everything Remington
except weight and bulk.

A "Simplified Remington" describes it exactly.

And its price is \$50.00

Remington Junior Typewriters will be sent "on examina-
tion," without obligation to purchase.

Easy payment terms can be arranged if desired.

When you want hauling done why not patronize a licensed dray man.—Oscar Carlson.

The big freighter Wellesley of the Admiral Line was in port this morning with a large consignment of oil for the Standard Oil Co.

Geo. B. Hull, Dist. Engineer of the Department of Public Works for Canada, arrived up on the Princess May last Tuesday morning. Mr. Hull is supervising the work being done on the Stikine River where a crew of men are now working blasting out the spars and bars and otherwise improving the river for navigation.

Henry Haldane, a native artist of Metlakatla, Alaska, has opened up a shop & building on Front Street and is attracting much attention over his excellent painting on small Indian canoe paddles. Mr. Haldane is a native artist and his production of his old totem poles is remarkable. His work is real worth inspecting.

"Dad" Smith is proudly showing some pictures of his new ranch in Washington to his friends about town this week. Dad says he has one of the finest ranches in the world and the pictures certainly held up his statement. Mr. & Mrs. Smith returned last week after spending the winter on the Sound and after disposing of their property here will leave to make their future home there.

Mrs. John E. Worden and daughters, Lynn and Liberty, entertained at their home on Friday evening, March twenty-fourth, at 7:30 P. M. Forty ladies, including the matrons and teachers of Wrangell were present. The guests came attired as little girls (in short frocks and curls) and the idea was carried out during the evening. Games, from word contests to London Bridge, formed the amusements and prizes were awarded. Refreshments which made an appeal to the youngsters' appetites were served at 10 o'clock and the little ones departed for their homes an hour later.

Notice Of Town Election

April 4th

NOTICE is hereby given that the annual municipal election for the town of Wrangell, Alaska will be held in the Council Rooms, Town Hall, on Tuesday, April 4th 1916 between the hours of 10 o'clock a. m. and 7 o'clock p. m. of said day, without closing.

This election will be held for the purpose of electing a Common Council of seven members, and one member of the School Board, a treasurer for a three year term.

Paul F. Stanhope, Town Clerk

F. MATHESON, Treasurer, Town of Wrangell, Alaska, February 10, 1916.

Notice Of Registration Of Voters

Notice is hereby given that the book for the registration of voters for the coming municipal election to be held Tuesday, April 4th, 1916, is now open at the Sentinel Office and will remain open until April 1, 1916.

Dated at Wrangell, Alaska, on March 2, 1916.

PAUL F. STANHOPE, Registrar.

A Real Skeptic.
Orelle Wright, at a banquet in Dayton, told of an obstinate old Daytonian who, looking up one still afternoon at the Wright biplanes circling smoothly and steadily through the air, said: "When people first told me about this"

Inconspicuous.
A clerical correspondent of one of the London church papers relates that a certain parson had great difficulty in suppressing his laughter at the consecration of a church the other day owing to the device on one of the school banners which were carried in the procession before the service. This banner was adorned with a very fierce looking lion, with terrible claws and teeth, while underneath him was the legend, "Suffer little children to come unto me."

Eau de Cologne.
The first cologne was called Hungary water, from the country of its invention. It was made from spirits of wine distilled upon rosemary.

Lemon Rind.
The "zest" of lemon is the very thinnest possible grating of the yellow outer rind. If any of the white underneath is added the whole will become bitter.

A Kitchen Hint.
If you use a tin funnel as a twine holder in your kitchen, try cutting a notch in the small end of the funnel where the end of the twine comes through. Sharpen the edges of this notch with a small file, when the twine will cut easily.

Jamaica's Wood.
Jamaica has a great deal of valuable wood in its interior, but the streams are not large enough to bring it to the coast.

Looking For

Lost Brother

Capt. Robert Smith of the Salvation Army is in receipt of a letter from one L. A. Hillikson enquiring about brother Carl. S. Hillikson, also went by the name of Chas. McDonald, who was last heard from in 1894 when he was residing at Fort Tongas, Alaska. Anyone knowing of this man will confer a great favor by communicating with Capt. Smith, Wrangell. (Other papers please mention.)

National Forest Timber For Sale

Sealed bids will be received by the Forest Supervisor, Ketchikan, Alaska, up to and including April 2, 1916, for all the merchantable dead timber standing or down, all the live timber marked or designated for cutting on an area embracing about 210 acres, beginning at the head of Burnett Inlet and extending along the east shore one mile, and extending 2000 feet back from the shore, estimated to contain 1,000,000 feet B.M. of spruce saw timber, 35,000 feet B.M. of red cedar saw timber, and 15,000 feet B.M. of hemlock saw timber. No bid of less than \$1.00 per M. for spruce and red cedar and 50c per M. for B.M. hemlock saw timber will be considered. Deposit with bid \$500.00. The right to reject any and all bids is reserved. Before bids are submitted full information concerning the timber, conditions of sale, and the submission of bids should be obtained from the Forest Supervisor, Ketchikan, Alaska.

RECIPE FOR GRAY HAIR.
To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 1/2 oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. Full directions for making and use, come in each box of Barbo Compound. It will gradually darken streaked, faded gray hair, and removes dandruff. It is excellent for falling hair and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.

Sanford Oldest Expert Criminologist

HOW can this greatest of all detectives go straight to the heart of any mystery, find clues the police have overlooked, and make criminals do as he tells them?

What wonderful power is hidden behind this wall of the clubs whose brain works like lightning, whose nerves are of steel, who defies death and danger with a smile?

See Herbert Rawlinson, that finished and polished player of the movie world, in this great part, positively the most remarkable detective character ever staged in the entire world.

See The Black Box, the World's most fascinating Serial and you will see finer acting, more wonderful scenes, more exciting episodes, than you ever dreamed were possible.

You must see The Black Box before you can judge it, because it is entirely and distinctly different. It's in a class by itself. Set aside one night every week to—

WRANGELL, ALASKA

Washington, March 30—President Carranza of Mexico seems to be playing for more time for some reason as he has not given the United States complete use of the railways in Mexico as he promised to do. The State Department is still negotiating with him and transportation of the army supplies is seriously hampered.

London, March 30—The first spring thaw has begun on the Russian front and the heavy movement of troops and fighting will begin at once. Hard fighting is reported from the Dvinsk region where the Russian forces are on the offensive and are driving the Germans back.

A Trained Corsetiere Fits Your Made-To-Measure NuBone. No Extra Cost.

Know the luxury of a perfectly fitted corset—a corset with lines that are modish to the last degree and with the comfort of perfect flexibility.

The NuBone Corset yields to every movement—permits perfect grace and freedom of the body, and yet actually holds the figure to lines of artistic beauty because.

NuBone

is the only corset boned with the NuBone patented triple-wire stays. These stays of three wires, interwoven and interlocked give that greater support present styles demand, and will not take a permanent bend at the waistline.

National Forest Timber for Sale

Up to and including January 1, 1917, for a tract of timber located on the south end of Etolin Island, beginning at a point on the south shore 132 deg. 17 min. W. longitude, and extending in a westerly direction along the shore a distance of 1 mile, the tract extending back from the shore a distance of 2000 feet, estimated to contain 400,000 board feet of spruce, fir, hemlock, and 40,000 linear feet of spruce and hemlock piling; also the merchantable timber on Clover Island, located in the south entrance of Clover Passage, estimated to contain 100,000 board feet of spruce saw timber, and 30,000 linear feet of spruce and hemlock piling. No bid of less than \$1.00 per M. ft. B. M. for spruce saw timber, 34 cent per linear foot for all piling up to and including 75 feet in length, and least per linear foot for all piling over 75 feet in length, will be considered. Deposit with bid \$500.00. The right to reject any and all bids is reserved. Before bids are submitted full information concerning the timber, conditions of sale, and the submission of bids should be obtained from the Supervisor, Kotzebue, Alaska.
